

Assignment-1

Ensure the script checks if a specific file (e.g., myfile.txt) exists in the current directory. If it exists, print "File exists", otherwise print "File not found".

```
import os  
  
filename = 'myfile.txt'  
  
if os.path.isfile(filename):  
    print("File exists")  
else:  
    print("File not found")
```
